**Detail Report –**

On the occasion of International happiness day the faculty of science organized lecture on the theme of this years International Happiness day is "importance of happiness in peoples life "on 20 march 2021

Mr. Rahul Kamble Sir said that, in this entire world, almost most are working hard to meet their needs and it's thanks to the happiness that we get from our satisfaction when our needs are fulfilled. But there are many folks during this world who don't seem to be able to fulfill their needs and are still happy because they're satisfied of what they need today and that they sleep in this instead of worrying about tomorrow. So, happiness becomes a choice for an individual whether he wants to link his/her happiness with his/her success or with the present. If you want to live a happy life then try to live in your present rather than ruining it by worrying about tomorrow.

Then vote of thanks did by Shivanipatil and Anchoring did by B.Sc. I and Dmlt I year students Akshata Patil and Pooja Bhosale. HOD Rahul Kamble, and all teacher staff, students were present for this event.
