Detail Report –

On the occasion of world Sparrow day the faculty of science organized lecture on the theme of this years World Sparrow day is "I Love Sparrows" Dated on 20 march 2021.

The function was started by inauguration of the posters which was made by science students.

Mr. Rahul Kamble Sir said that, every year on March 20, World Sparrow Day is celebrated all over the globe with an aim to raise awareness and protect the bird. A few years back, house sparrows were easily spotted at the homes of the people. Now, due to the increase in noise pollution, the bird is on the verge of extinction. World Sparrow Day is an international initiative started by the Nature Forever Society in India in collaboration with the Eco-Sys Action Foundation (France) and numerous other national and international organisations across the world to impact awareness about the house sparrow and other such birds.

World Sparrow Day also has a broader vision to provide a platform where people who are working on the conservation of the house sparrow and other common birds can network, collaborate and exchange conservation ideas which will lead to better science and improved results. It aims to provide a meeting ground for people from different parts of the world to come together and form a force that can play an important role in advocacy and in spreading the awareness on the need of conserving common biodiversity or species of lower conservation status.

Then vote of thanks did by Mayuri Patil and Anchoring did by Dmlt II year students SakshiDevardekarand AishwaryaAmbi. Faculty head Mr. Rahul Kamble, and all teacher staff, Science students were present for this event.
