Organizing Dept./ Committee	Department Of Science
Organizing Committee	Miss. Pooja Chiturkar, Mrs.Nivedita Gurav, Miss.Sidhata Goud
Day and Date	11 October 2022

### Detailed Report:

Shahid Virpatni Laxmi Mahavidyalaya, Titave. On the occasion of "World Ayurveda Day" Department of Science organized by debate competition dated on 11<sup>th</sup> October 2022. Students take participated in this competition at time 12:00 pm to 1:30 pm.

We gave the information about the Ayurveda. Students Participate the Debate and conversation of homeopathy and chemotherapy Ayurveda Day is celebrated every year on the October 11. Every year on India celebrates National Ayurveda Day. The aim of the day is to raise awareness about the value of Ayurveda in improving health and daily life. Ayurveda Day is a significant occasion to promote and globalize Ayurveda as one of the most ancient and holistic approaches to medicine across the globe.

Thus, Ayurveda translates to knowledge of life. Based on the idea that disease is due to an imbalance or stress in a person's consciousness, Ayurveda encourages certain lifestyle interventions and natural therapies to regain a balance between the body, mind, spirit, and the environment. In India, Ayurveda is considered a form of medical care, equal to conventional Western medicine, traditional Chinese medicine, naturopathic medicine, and homeopathic medicine. Practitioners of Ayurveda in India undergo state-recognized, institutionalized training. Currently, Ayurveda practitioners are not licensed in the United States, and there is no national standard for Ayurveda training or certification. However, Ayurveda schools have gained approval as educational institutions in some states.

Ayurveda can have positive effects when used as a complementary therapy in combination with standard, conventional medical care.
