IMPORTANCE OF EARTH

Each day is a birthday of our world as well as our own. The day we celebrate the birthday of the world and the earth. Each day has its own story to tell in nature. The sun and moon and stars and planets are all part of the story. The earth is the center of it all.

The sun, moon and stars are all part of the story. The sun is the center of the solar system. The moon is the center of the earth. The stars are the centers of other solar systems. The earth is the center of our world.

The sun is the center of the solar system. The moon is the center of the earth. The stars are the centers of other solar systems. The earth is the center of our world.
