Detail Report -

On the occasion of world forest day the faculty of science organized lecture on the theme of this years World Forest day is "Forest restoration: a path to recovery and well-being" Dated on 21th march 2021.

Faculty head Mr. Rahul Kamble guided to all students. He said that, The every year on the 21st day of March, World Forest Day is celebrated in whole world. We celebrate world forest day because to promote and awareness about the importance of forest in our lives and on the planet. Also he says we celebrate these day through tree-planting each and every person planting the one or more trees in our surrounding. Plants is maintain the population and give us lot of oxygen. Forest restoration is very important for our next generation.

The concept of World Forestry Day was coined in 1971 and turned into an annual event recently in 2012. Forest Day actually stemmed from a casual conversation between two scientists in Oxford, England, who spoke about how people are underestimating the importance of forests in mitigating carbon emissions. Their conversation influenced one of the world's biggest organizations and instigated a global event that we celebrate today. We do not take for tree plantation then you have to carry an oxygen cylinder on your back. Also we planted one tree on your birthday.

Then vote of thanks did by Shailaja More and Anchoring did by Bsc. II year student Mayuri Patil. HOD Rahul Kamble, and all teacher staff, students were present for this event.
