Detail Report-

Shahid Virpatni Laxmi Mahavidyalaya, Titave. Department of science organized the event on 'Road Safety Awareness' in Gargoti Dated on 20th February 2020.

Road safety is of prime important as road accidents are among the biggest causes of death in the country. With the number of vehicle on our roads increasing with every passing hours, it's of vital important for everyone to have traffic awareness, understand and respect all roads safety rules in India.

Road Safety Guideline -

- Obey all traffic signals, boards and signs.
- Adhere to permitted speed limits.
- Do Not Drink and Drive.
- Always carry your driver's license and other important documents such as vehicle registration, insurance, road tax & P.U.C.
- Wear seat belts always while in a moving vehicle.

Rules of the Road

General Rules Keep Left on a two-way road to allow traffic from the opposite direction to pass on your right and on a one-way road to allow vehicles behind you to overtake from your right.

When Turning Left keep to the left side of the road you are leaving as well as the one you are entering. **When turning right**, move to the centre of the road you are leaving and arrive near the left side of road you are entering.

Slow Down at road junctions, intersections, pedestrian crossings and road corners and wait until you are sure of a clear passage ahead. if you are entering a main road where traffic is not being regulated, give way to vehicles passing on your right.

Hand Signals are necessary at certain times. When slowing down, extend your right arm palm down and swing it up and down; when stopping, raise your forearm vertically outside the vehicle; when turning right or changing lane to the right hand side, extend your right arm straight out, palm to the front; when turning left or changing lane to the left hand side, extend your right arm and rotate it in an anti-clockwise direction.

To allow the vehicle behind you to overtake, swing your right arm backward and forward in a semicircular motion. **Direction Indicators** Better use directions indicators instead of hands signals and both in case of any emergency. **Wearing a Helmet for Two Wheeler Drivers** is a statutory requirement. The helmet must conform to the ISI standards and should bear the ISI mark. Helmet works as a shield for your head in case of a mishap. It is designed for your individual safety and not as a cover to avoid legal prosecution. For complete safety tie the strap properly otherwise the helmet may slip from your head in case of an accident head injury. (Turban wearing Sikhs are exempted from using a helmet).

Principal Mr. Prashant Palkar Sir, Mr. Sagar Shetage Sir, Mr. Samadhan Powar sir ,Teacher staff and students were present for this event.
