Detail Report:

Truth, Love, Peace, Non-Violence and Righteous Conduct are the Universal Human Values. ... These are needed for well-being of an individual, society and humanity and ultimately Peace in the world. For this reason our college arranged induction programmed for First Year Students.

For this Guest Lecture the Guest Was Mr. Vinod Patil sir the valuable guest in his Subject. The lecture conducted online mode and students attended from college campus.

Mr. Patil said that, the claim for universal values can be understood in two different ways. First, it could be that something has a universal value when everybody finds it valuable. This was Isaiah Berlin's understanding of the term. According to Berlin, "...universal values....are values that a great many human beings in the vast majority of places and situations, at almost all times, do in fact hold in common, whether consciously and explicitly or as expressed in their behavior..." Second, something could have universal value when all people have reason to believe it has value.

Amartya Sen interprets the term in this way, pointing out that when Mahatma Gandhi argued that non-violence is a universal value, he was arguing that all people have reason to value non-violence, not that all people currently value non-violence. Many different things have been claimed to be of universal value, for example, fertility, pleasure, and democracy. The issue of whether anything is of universal value, and, if so, what that thing or those things are is relevant to psychology, political science, and philosophy, among other fields.

For the First Students they want to know the moral Responsible and our Values in the living world.

For this Event Principal Mr. Prashant Palkar sir and HOD Mr. Rahul S. Kamble and Faculty Members and Students from Respective Class.
